

A close-up photograph of two hands, one on the left and one on the right, each holding a thick, light-colored wooden stick. The hands are positioned as if they are about to bring the sticks together. The background is a blurred industrial or workshop setting with various equipment and structures. The lighting is soft, highlighting the texture of the wood and the skin of the hands.

Complexity made *easy*

**Creative Component Solutions™
Subassemblies**

BUFAB

Since Bufab was founded back in 1977, our strength has been our flexibility and solution-oriented approach. Our awareness and curiosity are reflected in everything we do, and our focus is consistently on identifying improvements and ensuring they are implemented. With this fundamental philosophy as a benchmark, a carefully defined concept has taken shape. A concept that offers even smarter solutions.

Bufab Creative Component Solutions™

– complexity made easy.

A selection - Subassemblies

By combining your components into assembled parts, we are often able to cut direct and indirect costs and reduce the number of suppliers. With its flexibility and high level of know-how, Bufab has extensive expertise in parts assembly. We offer effective, unique solutions based on the specific needs of the customer.

Control Rod
Rod to open the lock of
a truck door
